

Silicone defoamer Tech-3066-5

Description

Tech-3066-5 is fluorine modified organic silicone antifoaming agent with good foam stability. It can be used in any stage and has good compatibility. Tech-3066-5 could be used in all solvent based systems

Physics and Chemical properties

Ingredient: Fluorine modified organic silicon compound

Appearance: Colorless to light yellow

Content: 1%

Solvent: Mixed ester

Specialty

1. Tech-3066-5 is suitable for the solvent coating system has excellent abilities to restrain and break the foam.
2. Tech-3066-5 has very good compatibility. It has no any influence on the transparency of paint film in various application systems.

Application System and Dosage

Tech-3066-5 is suitable for all of the solvent system.

Usually, it could be charged at random stage during the produce with **0.1%** to **1%** dosage to gross.

Package

25kg pail

TECH Polymer
