

Silicone leveling agent Tech-UV23570

Describe

Tech-UV23570 is a modified organosilicon compound with acrylic group, which has excellent compatibility and leveling ability and good slip effect. It is especially suitable for radiation-curing system and solvent-based coating system.

Physical and chemical parameters

Component: acrylate-based modified silicone oil

Appearance: yellow transparent liquid

Live fraction: 70%

Solvent: TPGDA

Specificity

levelling property	wetting power	Repainting property	compatibility	Slippery	Low foam stability	Shrinkage resistance	Anti-adhesion
★★★★★	★★★★	★★★★	★★★★★	★★★★★	★★★	★★★★	★★★

★★★★★★★ stands for the best ★ stands for the worst.

Application system and dosage

Tech-UV23570 is especially suitable for UV curing system, and can also be widely used in various solvent-based coating systems.

The generally dosage is 0.1-1% of the total amount, and can be added at any stage of production.

Packaging

25kg steel pail

TECH Polymer
