

Silicone defoamer Tech-3220

Description

Tech-3220 is a organic silicone emulsion as defoamer for water base systems. It has high antifoaming efficiency at low addition. It is suitable for coating and printing ink. It is easy to disperse and low possibility to cause crater.

Physics and Chemical properties

Ingredient: Modified silicone

Appearance: White emulsion

Content: 20%

Solvent: Water

Specialty

1. Tech-3220 defoamer is suit for water base coating systems, it could defoam as quickly as possible.
2. Tech-3220 defoamer has the serious efficiency in defoam ability at the rather low level additive dosage, and appears very well.

Application System and Dosage

Tech-3220 is recommended to use in the *water borne* coating systems.

Usually, it should be charged at the lapping stage during the produce with **0.05%** to **1.0%** dosage to gross.

Package

25kg plastic pail.
