

Silicone defoamer Tech-30881

Descriptions

Tech-30881 is a silicone defoamer for solvent-based systems that enables the rapid removal of air bubbles generated during the production of coatings with excellent compatibility and safety of use

Physics and Chemical properties

Ingredient: Modified polysiloxane

Appearance: Colorless transparent solution

Content: $\leq 3\%$

solvent: paraffin

Specialty

- ◆ Tech-30881 is suitable for solvent-based coating systems and has excellent defoaming ability for rapid foaming.
- ◆ Tech-30881 has excellent compatibility and is not prone to cause cloudiness of the system without affecting the gloss.
- ◆ Tech-30881 has excellent compatibility and is not prone to cause cloudiness of the system without affecting the gloss.

Application System

Tech-30881 can be used in all solvent-based systems.

Dosage

Generally 0.1-1% of the total amount, which can be added at any stage of production.

Package

25kg iron drum

TECH Polymer

A company focus on additives since its birth
