

Polymeric defoamer Tech-49256

Description

Tech-49256 is non-silicon antifoaming agent which is special designed for the radiation-curing coating system. The Tech-49256 has good compatibility with good defoaming and antifoaming abilities. It has no influence on the re-coating.

Physics and Chemical properties

Ingredient: Special modified polymer

Appearance: Light yellow transparent liquid

Content: 100%

Specialty

1. Tech-49256 has excellent compatibility in radiation-curing system.
2. Tech-49256 has very good recoatability for avoiding of curtain breaking during curtain coating in photocurable coating system.

Application System and Dosage

Tech-49256 could be used in the radiation-curing system, unsaturated polyester system.
The dosage can be around 0.3-1.0% of total, please test the optimized dosage.

Package

25kg plastic pail.

TECH Polymer

A company focus on additives since its birth

For research and development purposes only, there is no warranty of any kind, so please test its suitability in advance.
