

Silicone Monomer Tech-2205

Description

Tech-2205 is mono-functional silicone monomer with short silicone chain. It could be used in radiation curing system and the manufacture of acrylate resins. It could improve the substrate wetting and anti-weathering.

Physics and Chemical properties

Ingredient: methacrylate silicone monomer

Appearance: yellow transparent liquid

Content: 100%

Molecular weight: 300-500

Application System and Dosage

The dosage is from 1-10%

Package

25kg metal pail.

TECH Polymer

A company focus on additives since its birth

For research and development purposes only, there is no warranty of any kind, so please test its suitability in advance.
