

Leveling agent Tech-137

Description

Tech-137 is fluorocarbon modified acrylic copolymer leveling agent. Tech-137 has the excellent leveling performance, fast leveling speed. Tech-137 can decrease the surface tension on the paint film so as to good anti-crater ability.

Physics and Chemical properties

Ingredient : Fluorinated acrylic copolymer

Appearance: Colorless transparent liquid

Content : 70%

Solvent : solvent naphtha

Specialty

1. Tech-137 has good compatibility, good leveling in solvent system.
2. Tech-137 can decrease the surface tension on the paint film and improve the substrate wetting.

Application System and Dosage

TECH-137 is recommended to used in solvent and solvent-free systems such as alkyd, acrylic acid, amino baking.

Usually, it could be charged at random stage during the produce with **0.1%** to **1%** dosage to gross.

Package

25kg metal pail.
