

Leveling agent Tech-1601

Description

Tech-1601 is fluorocarbon modified acrylic copolymer leveling agent with high fluoro content. Tech-1601 has the excellent leveling performance, fast leveling speed and better compatibility in common resin system. Tech-1601 can greatly decrease the surface tension with good anti-crater ability.

Physics and Chemical properties

Ingredient: Fluorinated acrylic copolymer

Appearance: light yellow transparent liquid

Content: 100%

Specialty

1. Tech-1601 has good compatibility, leveling capacity in solvent system
2. Tech-1601 can decrease the surface tension on the paint film so as to improve the substrate wetting.

Application System and Dosage

Tech-1601 is recommended to used in solvent and solvent-free systems such as alkyd, acrylic acid, amino baking.

Usually, it could be charged at random stage during the produce with **0.1%** to **1%** dosage to gross.

Package

25kg plastic pail.
