

Leveling agent Tech-1651

Description

Tech-1651 is fluorocarbon modified acrylic copolymer leveling agent. It has excellent leveling performance, rapid leveling speed and better compatibility in common resin system.

Physics and Chemical properties

Ingredient: Fluorinated acrylic copolymer

Appearance: light yellow transparent liquid

Content: 50%

Solvent: Dipropylene Glycol Methyl Ether

Specialty

1. Tech-1651 has good compatibility, leveling capacity in solvent system
2. Tech-1651 can decrease the surface tension on the paint film so as to improve the substrate wetting.

Application System and Dosage

TECH-1651 is recommended to used in solvent and solvent-free systems such as alkyd, acrylic acid, amino baking.

Usually, it could be charged at random stage during the produce with **0.1%** to **1%** dosage to gross.

Package

25kg metal pail.
