

## Polymeric defoamer Tech-426F

### Description

Tech-426F is a universal acrylic defoamer with high defoaming ability. It is special designed for high viscosity systems and it is very suitable for polyester, epoxy and UV systems.

### Physics and Chemical properties

**Ingredient** : Acrylic polymer

**Appearance**: Light yellow transparent liquid

**Content** : 100%

### Specialty

1. Tech-426F is special modified acrylate compound. It has the most high antifoam ability.
2. Tech-426F is suitable for polyester, epoxy and UV systems.

### Application System and Dosage

The amount is around 0.1%-1.0% of total

### Package

25kg metal pail.
