

Non-silicon leveling agent Tech-1066

Description

Tech-1066 is a modified acrylic leveling agent, suitable for various solution-based systems, with good leveling, with a certain deaeration ability, fast leveling speed, good compatibility, suitable for various solvent-based systems

Physics and Chemical properties

Ingredient: Modified acrylate copolymer

Appearance: Yellow transparent liquid

Content: 100%

Specialty

1. Tech-1066 has good compatibility and leveling in solvent-based systems
2. Tech-1066 has a strong ability to wet substrates and has some deaeration ability.
3. Tech-1066 has a fast leveling speed and is suitable for a wide range of solvent-based systems

Application System

It is used in solvent-based and solvent-free systems such as alkyd, acrylic, amino baking paint, polyurethane, etc.

Dosage

Generally, it is 0.1-1% of the total amount, which can be added at any stage of the production process.

Package

25kg plastic drum

TECH Polymer

A company focus on additives since its birth

For research and development purposes only, there is no warranty of any kind, so please test its suitability in advance.
