

Silicone free leveling agent Tech-1067N

Describe

Tech-1067N is a modified polyester leveling agent, which is suitable for various solution systems. It has excellent compatibility, good leveling property, and strong ability to wet the substrate.

Physical and chemical parameters

Component: modified polyester copolymer

Appearance: yellow transparent to slightly turbid liquid.

Live fraction: 100%

Specificity

1. Tech-1067N has excellent compatibility and leveling in solvent based systems
2. Tech-1067N has a strong wetting ability to the substrate and a certain degree of defoaming property.

applied range

Used in solvent-based and solvent-free systems such as alkyd, acrylic, amino baking varnish and polyurethane.

Recommended dosage

Generally, 0.1-1% of the total amount can be added at any stage in the production process.

package

25kg plastic pail
