

## Non-silicon leveling agent Tech-1570

### Descriptions

Tech-1570 is a fluorocarbon modified acrylate leveling agent, suitable for various solution-based systems, with good leveling, with a certain deaeration ability, fast leveling speed, good compatibility, suitable for various solvent-based systems

### Physics and Chemical properties

Ingredient: Modified acrylate copolymers

Appearance: Light yellow transparent liquid

Content: 70%

### Specialty

1. Tech-1570 has good compatibility and leveling in solvent-based systems
2. Tech-1570 has strong substrate wetting ability and certain deaeration ability.
3. The Tech-1570 has a fast leveling speed and is suitable for a wide range of solvent-based systems

### Application System

It is used in solvent-based and solvent-free systems such as alkyd, acrylic, amino baking paint, polyurethane, etc.

### Dosage

Generally, it is 0.1-1% of the total amount, which can be added at any stage of the production.

### Package

25kg plastic drum

## TECH Polymer

A company focus on additives since its birth

For research and development purposes only, there is no warranty of any kind, so please test its suitability in advance.
