

## Polymeric defoamer Tech-425N

### Description

Tech-425N is a silicone free vinyl ether polymeric defoamer with great defoam ability, high efficiency. It is special designed for high viscosity systems, very suitable for the primer with high zinc stearates, and useful for almost all solvent-based systems.

### Physics and Chemical properties

**Ingredient:** Vinyl ether copolymer

**Appearance:** Light yellow transparent liquid

**Content:** 20%

**Solvent:** Paraffin

### Specialty

1. Tech-425N is special vinyl ether copolymer compound. It has strong antifoam ability.
2. Tech-425N can solve the difficult antifoaming problem in high viscosity system through releasing the bubble from the painting.

### Application System and Dosage

Tech-425N could be used in 2K PU, amino baking varnish, nitro dip-coating, acid cure amino, epoxy solvent and solvent-free systems.

The amount is around 0.1%-1.0% of total.

### Package

25kg plastic pail.
