

## Aluminum Pigment Passivator Tech-8892

### Describe:

Tech-8892 is an acid copolymer solution, which can be used in water-based systems to improve the dispersion of aluminum paste and help to disperse solvent-based aluminum paste into water-based systems. At the same time, Tech-8892 provides passivation for aluminum pigment

### Physical and chemical parameters:

Composition: acidic with solution  
Appearance: yellow transparent solution  
Live fraction: 50%  
Solvent: propylene glycol monomethyl ether.

### Usage and dosage

The recommended dosage is 0.1~2% based on the total formula.

### Packaging

25kg plastic pail

## TECH Polymer

A company focus on additives since its birth

For research and development purposes only, there is no warranty of any kind, so please test its suitability in advance.
