

Polymeric defoamer Tech-452

Description

Tech-452 is polymeric antifoaming agent suitable for solvent and non-solvent painting, ink and thermosetting resin system. It can eliminate the bubble from manufacture and application and it has no reverse effect on the adhesion between inter-coating film.

Physics and Chemical properties

Ingredient : Acrylic polymer

Appearance: Light yellow transparent liquid

Content : 25%

Solvent : Solvent naphtha

Specialty

1. Tech-452 has strong antifoaming capacity and could be used in all kinds of solvent-based systems
2. Tech-452 has no influence the adhesion and re-coating

Application System and Dosage

Tech-452 could be used in PU-2K, amino baking varnish, nitro dip-coating, acid cure amino, coil coating systems.

The recommended amount is around 0.1~1.0%

Package

25kg metal pail.
