

Polymeric defoamer Tech-455

Description

Tech-455 is polymeric antifoaming agent with excellent compatibility. It is special designed for the radiation-curing system, epoxy systems.

Physics and Chemical properties

Ingredient : Acrylic polymer

Appearance: Light yellow transparent liquid

Content : 7%

Solvent : solvent naphtha

Specialty

1. Tech-455 has very good compatibility and it is proper for radiation-curing system

Application System and Dosage

Tech-455 could be used in radiation-curing systems, the suggested optimized amount is between 0.1~1.0% of total

Package

25kg metal pail.
