

Polymeric defoamer Tech-490

Description

Tech-490 is a silicone free vinyl ether polymeric defoamer with great defoam ability, high efficiency, low possibility to cause crater. It has excellent performance in coil coating, epoxy coating and UV curing systems.

Physics and Chemical properties

Ingredient : Vinyl ether copolymer

Appearance: Light yellow transparent liquid

Content : 100%

Specialty

1. Tech-490 is special vinyl ether copolymer compound. It has strong antifoam ability and excellent performance in coil coating systems.
2. Tech-490 can solve the difficult antifoaming problem in high viscosity system through by curbing the bubble during mixing, release the tiny bubble from the painting.

Application System and Dosage

Tech-490 could be used in 2K PU, amino baking varnish, nitro dip-coating, acid cure amino, epoxy solvent and solvent-free systems.

The amount is around 0.1%-1.0% of total

Package

25kg metal pail.
