

Silicone free leveling agent Tech-1772

Describe

Tech-1772 is a fluorine modified acrylate copolymer, anionic, specially designed for water-based systems, with good compatibility, excellent leveling, fast leveling. Because of its special structure. Tech-1772 may affect the recoating performance when used in water-based baking paint systems

Physical and chemical parameters

Component: fluorinated acrylate copolymer.
Appearance: yellow transparent liquid
Live fraction: 50%
Solvent: propylene glycol monomethyl ether.

Specificity

1. Tech-1772 has good compatibility and leveling in solvent based systems
2. Tech-1772 can provide excellent shrink proof capacity

applied range

Used in solvent-based and water-based systems such as alkyd, acrylic, amino baking varnish and polyurethane.

Recommended dosage

Generally, 0.1-1% of the total amount can be added at any stage in the production process.

package

25kg plastic pail

TECH Polymer

A company focus on additives since its birth
