

Water repellent Tech-29801-2

Descriptions

Tech-29801-2 is a emulsion of modified silicone. It could provide excellent water-repellent for inorganic substrate and building materials

Physics and Chemical properties

Ingredient: emulsion of modified silicone

Appearance: white emulsion

Content: 50%

Solvent: Water

Specialty

1. Tech-29801-2 could be used as primer for inorganic substrate to supply water repellent effect.
2. Tech-29801-2 is APEO free and could be mixed with other emulsions

Application System and Dosage

Tech-29801-2 could be used in all *water borne* coatings.

Usually, it could be charged at random stage during the produce with **1%** to **5%** dosage to gross.

Package

25kg plastic pail.

TECH Polymer

A company focus on additives since its birth

For research and development purposes only, there is no warranty of any kind, so please test its suitability in advance.
